GEI 是一家有国际影响力的本土民间机构，多年来，我们同合作伙伴一起，共同推动中国、东南亚以及非洲的环境保护和经济发展。

- 作为首个引进并本土化协议保护机制的机构，我们同地方政府和社区共同建立了 15 万公顷协议保护示范地，使数百万人间接受益，并为国家公园和生态保护的政策制定与完善提供了借鉴和参考；
- 我们是第一家“走出去”的国内民间 NGO，在缅甸、斯里兰卡、老挝、越南、喀麦隆、刚果（金）、乌干达、莫桑比克等国家开展项目；
- 我们开发了“低碳政策量化分析工具”，在重庆市、广东省、山西阳泉和朔州市进行了示范应用，并针对来自 20 余个省市的 1000 多名政府官员和 300 多名技术专家学者开展了关于工具应用的培训；
- 我们新组建的海洋保护项目，致力于通过推动海洋国家公园的建设，保护具有国家代表性的大面积海洋生态系统，实现海洋自然资源科学保护和合理利用；并通过中国与非洲、东盟、一带一路沿线国家的合作，推动海洋保护全球治理。

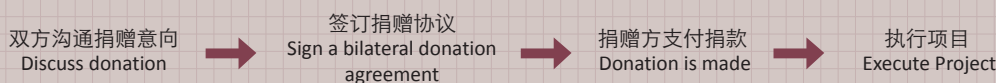

在开展这些工作的同时，我们也希望资助中国本土民间机构和其他发展中国家机构来解决全球的环境问题。为实现这一目标，我们需要可持续的资金注入开展工作，我们期待您成为我们的捐赠人，和我们共同发展环保事业。

GEI is a leading Chinese civil society organization with international influence. For nearly two decades, we have worked with partners to simultaneously promote environmental conservation and economic development in China, South East Asia and Africa.

- As the first organization to localize community-based conservation mechanisms to China, GEI introduced the mechanism across 150,000 hectares, indirectly benefiting millions of people.
- We were also the first Chinese NGO to work abroad, and have carried out projects in Myanmar, Sri Lanka, Laos, Vietnam, Cameroon, D.R. Congo, Uganda, Mozambique, etc.
- As one of the first organizations to participate in improving Chinese low-carbon policy making, GEI developed a 'low-carbon policy analysis toolkit,' which was used by Chongqing City, Guangdong Province, Shanxi's Yangquan and Shouzhou City, and has been disseminated to over 1000 policy makers and 300 experts across 20 provinces and cities in China.
- Our Marine Conservation program is devoted to establishing marine national parks in order to secure a healthy marine ecosystem within a sustainable world. Led by a China-based team, this work involves collaborators from countries in Africa, ASEAN and the Belt and Road.

As we continue to carry out this work, we also endeavor to support more local civil society organizations to contribute to solving China's environmental problems. We established GEIF in order to achieve this goal. We look forward to working with you.
